

First Grade News

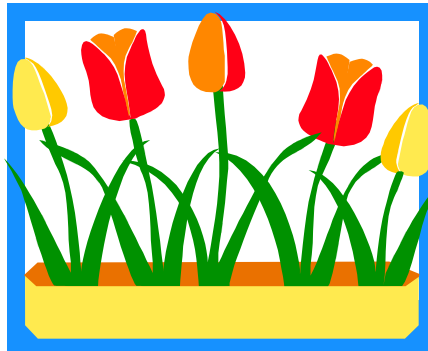

In Class This Month

Bob Lewis Elem.
397-2650

Reading– We're getting ready for second grade! We have started our last reader! We'll be studying word blends such as -ar and -or, as well as -ow and -ew. Please continue to support your child in their reading at home to ensure reading success! By this time of year, your child should be doing most of the reading to you when reading at home.

Math– We're in our shapes unit. Other units we'll be working on this month are fractions and time!

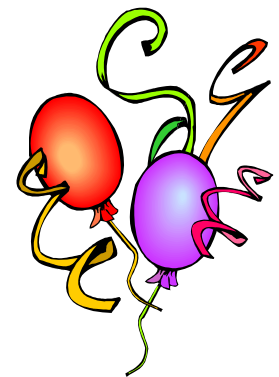

Science– We're busy in our desert unit right now. We've been doing research on a desert animal and learning about vocabulary like nocturnal, diurnal, herbivore, omnivore, and carnivore. We're also hatching butterflies to observe the life cycle in our classrooms!

April 2012

Fiesta

First grade will be having Fiesta Parties on April 20th. Please be watching your child's yellow folder for more information!
