

Downloading Your Personalized Study Guide

Students, educators, and parents can easily download customized Study Guides by visiting www.YourStudyGuide.com/Texas. Be sure to have your *Confidential Student Report (CSR)* ready and to follow these simple directions:

From the *Welcome* page, select the option to **Create a downloadable, customized version of Your Study Guide.**

On the next page, again select the option to **Create a downloadable, customized version of Your Study Guide.**

Now complete the following three steps to obtain your guide.

Step 1: Verify Your Access Level

Identify who you are from the dropdown menu (e.g., Texas student), your school name, and your zip code. Select the check box to verify your identity and click **Next**.

Step 2: Enter Your Subject Scores

For each subject, select the date of your test from the dropdown menu. Enter your score and the "Standard: Scale Score" from your CSR and click **Next**.

Step 3: Enter Your TAKS Objective Scores

For each subject, enter your TAKS objective scores in the text boxes and click **Submit**. A new page will automatically load when the Study Guide creation is complete.

You can now download a customized version of Your Study Guide as a PDF. The PDF can either be printed or saved as a file on your computer. You can print selected pages instead of the whole document.

Please visit www.YourStudyGuide.com/Texas for access to additional TAKS resources for students and teachers.

If you would like further assistance, please contact The Grow Network/McGraw-Hill at support@grow.net or (800) 481-GROW (4769).
