In partnership with other district departments and the Mexican Consulate, Plaza Comunitaria provides basic education, technology literacy, financial literacy, and parenting education for those with limited English proficiency.

Adult Secondary Education classes include basic education and high school equivalency preparation classes focused on helping students obtain the knowledge and skills necessary for employment, self-sufficiency and high school equivalency completion.

ENGLISH AS A SECOND LANGUAGE (ESL)
(210) 397-8109
English as a Second Language (ESL) courses are designed to improve student’s ability to read, write, listen, and speak in English. Upon completion of the program, students have the option to transition into our high school equivalency program.

HIGH SCHOOL EQUIVALENCY TESTING CENTER
(210) 397-8109
GED® Testing is by appointment only at the GED® Testing Center. The General Educational Development Diploma, also called the High School Equivalency Certificate in Texas, provides proof of the completion of an alternative high school education.

DISTANCE LEARNING
(210) 397-8109
If a student has a schedule that’s constantly changing, they may want to inquire about our distance learning program. These sessions are available for both ESL and ASE classes, but are held primarily online using internet-based activities. Call us for more information!

ABOUT OUR PROGRAMS

We support Northside Independent School District’s mission by encouraging the community to strive for personal excellence and lifelong learning beyond the classroom.
INTERESTED IN TEACHING?

We are always looking for experienced instructors and new course ideas. Our instructors come from varied backgrounds, from Northside teachers to business leaders, and all share one characteristic: a passion for sharing their area of interest.

If you have an idea for a class, please visit our website and submit a proposal detailing the course you would like to teach and what makes you the perfect person to teach it. Our coordinators review all applications based on our program needs and student requests. We plan four to five months in advance for our semesters, and work to select seasonally-appropriate classes. If your proposal fits a need, the coordinators will be in touch to discuss your ideas further.
