To Go Box Designs

A ball point pen does a wonderful job of drawing on a Styrofoam to go box. My kiddo loves to draw on the top of these. This particular day she wanted the top of the to go box to be a dream club-house. So she designed a dance floor, 2 fireplaces for roasting marsh mel-lows, a small pool, a small stage with 2 microphones for singing favorite songs and a counter for food….

Have fun and enjoy!
