### Common Core State Standards and MSTCs

The MSTC is knowledgeable about the adoption and implementation of Common Core State Standards (CCSS) and how the implementation of the Standards will impact mobile students. MSTCs can assist parents and students as they transition in or leave a district to understand the impact the standards will have on a student's academic program. The MSTCs can also provide resources to ensure the student is reaching the goals articulated in the CCSS.

The Military Child Education Coalition® (MCEC®) is a 501(c)(3) nonprofit, world-wide organization. A model of positive leadership and advocacy, the MCEC is focused on ensuring quality educational opportunities for all military-connected children affected by mobility, family separation, and transition. The MCEC performs research, develops resources, conducts professional institutes and conferences, and publishes resources for all constituencies.

## Military Family Guide

**Welcoming  
 Military Students  
 of Wounded Warriors  
 to San Antonio**

The MCEC's Student 2 Student and Junior Student 2 Student are powerful student-led programs designed to help change a transitioning student's focal point from what the student has lost to what the student will gain through the relocation.

Believing that transitioning does not have to be difficult, 'just different' S2S and JS2S programs are designed to help new students in 3 areas: academics, relationships and finding the way.

The **Military Student Transition Consultant (MSTC) Program** is an opportunity for the Fort Sam Houston Independent School District to partner with the Military Child Education Coalition as we augment the services of installation-based School Liaison Officers in support of our nation's military children. The MSTC works with military families to maximize the academic, artistic, athletic, and social skills of military students. The MSTC is here to assist families with questions and/or issues as they arise in transition, deployment, and relocation. Your MSTC plays a pivotal role to establish collaboration among school systems/local education agencies, public and private youth services, community groups, and installation-based resources.
