

Construction Technology

John Marshall H.S.

Do you like working with your hands? Learn real world building and construction concepts that can help thrust you into the construction industry as a career, as well as benefit you for a lifetime. No wooden gumball machines here! We build industry standard sized projects that include framing, electrical, drywall, and plumbing to give students the genuine hands-on experience they need! This isn't Woodshop,

THIS IS CONSTRUCTION
TECHNOLOGY!

BUILDING FUTURES

Teacher: Mr. Haddock
