Annual Title I Meeting

Purpose - The primary function of Title I is to close the achievement gap between groups of students by requiring greater accountability and offering increased flexibility and choice. Title I funds are authorized for professional development, instructional materials, resources to support educational programs, and parent and family engagement (1% of district entitlement). Title I, Part A provides supplemental resources to local districts to help schools with high concentrations of students from low-income families provide high-quality education that will enable all children to meet the state student performance standards.

Funding - Title I funds for providing services to eligible students is based in part on Census data and the district/campus poverty counts. The poverty threshold for schoolwide eligibility is 40%. If a campus has a poverty percentage of 40%-74% the District determines if the campus will be served with Title I, Part A funds. The District must serve campuses with a 75% and above poverty rate.

Schoolwide Program - This program is designed to promote schoolwide reform and upgrade the entire educational operation of the school to support students in their achievement toward meeting the state's academic standards that all students are expected to meet. The schoolwide program is also designed to meet the educational needs of all students in the school, particularly the needs of students who are failing, or most at risk of failing.
